PERSONAL SUMMARY

An enthusiastic and driven individual with a strong foundation in key skills and a proactive approach to problem-solving. I am eager to contribute fresh perspectives and dedicated to continuous learning and personal growth. My adaptability and commitment to excellence position me to take on challenges and deliver meaningful results in any environment.

KEY COMPETENCIES

Web Development :   Has sufficient knowledge in HTML, CSS and JavaScript for creating responsive web pages

API Integration: Basic experience with API usage for enhancing web functionality

---

WORK EXPERIENCE

Software Developer   **February - May 2024**
IntegrityNet Solutions and Services
Developed personal projects, including a portfolio website using HTML, CSS, and JavaScript to build front-end skills in responsive design. Gained exposure to back-end development with the Go language, learning server-side fundamentals. For the final project, created a zodiac sign horoscope application, applying both front-end and back-end knowledge to deliver a functional, user-centered project.
